Hi Betty,

I am introducing you to James, our incredible film director. We're really excited to come shoot with you this Summer! We will get some time on the books for you to meet ahead of time, do you mind sharing your address to help with coordinating logistics?

If you have any questions leading up to the shoot, please reach out! My phone number is 954-864-0451 if that's helpful!

Cheers,
Fiore

Hey Fiore and James,

Nice to meet you both, James and Fiore!

Address: 850 John Carlyle St Apt 533, Alexandria, VA 22314 (<https://maps.app.goo.gl/XF2Ltoy8GwdXtDec6>)
Mobile: 516-246-0305
Website: <https://publish.obsidian.md/bettyctai/home>

Attached is a PDF ("resume.pdf" from 2024) that may be helpful to give you (pl.) a sense of creative direction wrt. your teamwork.

Also, DC metro (WMATA) is cheap, accessible and rated one of the cleanest in the country [1]. Easy to make the transfers from the airport (DCA>IAD) via metro or in BWI's case, rail (MARC). If you travel light (like an away carry-on), probably don't need to uber/lyft/(waymo: 2026) if at all.

Thanks,
Betty

Hi Betty!

Looking forward to meeting you and shooting together! As we get closer, I'd love to schedule a short call to say hello and talk through expectations for the day.

Cheers!

James

Hi there,

SO excited for filming! Can we get some time on the calendar this week to align on the day of the shoot!

Can't wait,
Fiore

Hi,

Is there anything I should do to prepare or perhaps an agenda?

Thanks,

Hi Betty!

There is nothing required to prepare for our chat this week. It's mostly just to say hello, talk through expectations for the shoot day, and it's an opportunity for me to answer any questions you may have. =-)

Getting ahead of one thing - would you be able to ask your building manager if we have permission to film inside of your apartment? It is important that we obtain permission as to not run into any issues on the shoot day.

It would also be very helpful (if you have time) if you can share a few photos of your place. Common / sitting areas, and where you do your Outlier work, etc would be amazing.

Will follow up on wardrobe and anything I can think about.

I'm excited to see the questions that you both come up with.

Thanks,
Betty

Hi,

Yep. We've already spoken to management.

Also many residents (myself included) have had issues with the building management due to their neglect and oversight on temporary guests running rampant, raging parties through the numerous channels of Airbnb's, VRBOs etc and many other things.

The hilarious tea on this building is that there's a federal agent, living in this building, building a case against management for neglect etc etc, and most of the long-term residents in this building are active duty military.

I have already booked and reserved Airbnb spot (June 17 - 19).

Hi James and Fiore,

Are there any updates to the interview questions?

Please let me know if there are any issues or things that might impede your work that I can help facilitate!

I'm still working on my end consolidating my clothing choices for Wednesday.

Also, do you know roughly when your team will get to my place? (So you don't have to wait in the lobby)

Thanks,
Betty

Hi Betty!

The goal will be to get you the questions by the end of the day, but they may come tomorrow. Sorry for the delay.

As for arrival time on Wednesday, we are hoping to get to your place around 8:30 AM. Does that work?

Thank you so much, and looking forward to it!

Thank you for asking -- how have you been doing?

Thanks,

I've been a helpful contributor on Outlier, letting others know not to sell HLE data when approached by less than scrupulous businesses (because it's not theirs to sell) and not to leak information all over HLE projects to outsiders not covered by business agreements (Outlier T&C's, etc.) and writing automation infrastructure and writing up recommendations on strategies that Scale AI is hiring for but doesn't have the resources to execute on my free time to help out the Strategic Projects Lead. I've already shared the Anti-Spam document attachment with staff so the Strategic Projects Lead can improve the quality of the data produced.

And patiently waiting for my offer letter to sign in the mean time.

Hi Betty Tai,
Thank you for taking the time to complete the Human Frontier Collective Assessment and connecting with a member of our team! After careful review and consideration, we think you'd be a great fit and would love to invite you to join the Human Frontier Collective Fellows Program! Congratulations -
If you would like the accept, please fill out this [form](#) so we can start the onboarding process. Once submitted, you should expect to receive a contract agreement to sign within the following business days. Please review and complete at your earliest convenience. We are super excited to welcome you to the team!
Best,
Alysa Tolbert

I'm just letting you know I've been doing things that any good contributor of Outlier should do.

Re: The "maple/HLE/pegasus/starmie" team - cumhur.aygar@scale.com already knows. Clarifying: Being approached for selling the data (solution pairs) - the person, I believe, already reported to Jim. I'll send out a reminder email by tomorrow with other things too about how contributors may be exploiting the platform. (See: <https://docs.google.com/document/d/1fuxesRgTbG5CBvV4XCihd0bu0YE-QQXpIQ2sF26XE/edit?usp=sharing>)

Also some contributors are reporting that they're being approached by a journalist(s) to leak information on Outlier materials: https://www.reddit.com/r/outlier_ai/comments/1lie3xq/business_insider_reporter_contacted_me_about/

I'm reminding other contributors on the project not to leak any information to outsiders and not freely share materials and to remember Outlier's T&C's.

Ie. Do not make it harder for employees to do their jobs.

Does this make sense? (Sorry I thought you already knew).

And also, sorry for the barrage of emails (last one) --

I keep reporting to the reddit mods that people are posting in r/Outlier_ai privileged materials, answers, selling identities and accounts, and ways to exploit the platform to get them to take down the privileged information. Reddit mods refuse to take it down.

I've told Jim how I found one way to exploit the platform from Reddit and immediately let him know in the document.

Looking forward to speaking tomorrow.

Strategic Project Lead for HLE (Maple/Pegasus/Starmie etc): cumhur.aygar@scale.com

Just to recap - meeting minutes:

On the set, highlighted all the points of : <https://www.nationalsecurity.ai/>, AI + Quantum will accelerate the number of Nobel Laureates awarded, 100 years of Pax Americana (Pax Romana/Pax Britannica).

More than happy to contribute to the cause and ensure Scale AI's scientific mission is upheld!

Lastly, sorry -

To address Elon Musk's - disparaging comment on WSJ - the reporter can point out that I turned down a \$300K job at Intel to go work at NASA for \$18K a year and simultaneously to be on NY Medicaid and food stamps in order to help architect NASA's StarLink Integration (pilot on the Moon to be later fully implemented on Mars).

On the set, I addressed how AI + Quantum will get us to Mars. And the WSJ reporter can quip at Elon using me as an resource that I am a trope of a "broke engineer" much in the same spirit as Nikola Tesla. Or, that I am submitting work wrt HLE that helps train the AI to understand Elon Musk's work and all his patents and public IP (w/ DARPA - he's good at marketing but not "inventing" as he gets his ideas from [DARPA](#)).

Strategic Project Lead for HLE (Maple/Pegasus/Starmie etc): cumhur.aygar@scale.com

Just to recap - meeting minutes:

On the set, highlighted all the points of : <https://www.nationalsecurity.ai/>, AI + Quantum will accelerate the number of Nobel Laureates awarded, 100 years of Pax Americana (Pax Romana/Pax Britannica) **and get us to Mars within this lifetime so long as the quality of data is preserved.**
